Operations Active and Feverish at the Opening.

All the Iron and Steel Shares Particularly Heavy and Losses General-Large Dealings in the Railway List-Disquictude Excited by the Anthracite Miners' Strike.

NEW YORK, Sept. 20 .- The Stock Market opened active and feverish today, with material and effective pressure appearing in every quarter.

All of the iron and steel shares were particularly heavy, substantial losses being shown in Tennessee Coal and Iron, Colorado Fuel and Iron, American Steel and Wire, and Federal Steel.

The dealings in the railway list, however, were larger than in any other quarter of the market, and the declines were much less extensive than those that ap-

preared in the steel stocks.

In the main, the disquietude excited by the anthracite coal laborers' strike, the uncertainty as to the political situation, and apprehensions of closer money market conwere wholly instrumental in the

*Ex-div. 11/2 per cent During the first half hour today the was a continuance of the weak market yesterday, but before noon a recovery hegun which many in the Street belief begun which many in the Street believ would be a permanent one. Stocks reach new low levels, but seemed to be supported with some persistence after their deline. The grangers, helped by a slighteak in wheat perhaps, did not go mulower than yesterday's prices, and the seemed inclined to recover. Tenness Coal and Iron and other steel and iron so curities generally had rather bad breathut were then bought in such a way the careful people inferred their friends we willing to keep them from going lower, least for the present. The coal securiti willing to keep them from going lower, at least for the present. The coal securities went off little. The news was such as might have caused a bad tumble in prices all day, if the market had not already been on a very low level. The miners seem to be gaining strength daily in their strike. Money is a trifle stronger, call loans being this morning quoted at 2 per sent as compared with 1 and 11-4 per cent, the recent level Sentiment among conservative people is now inclined to hopefulness and it is known that there was some good and it is known that there was some good buying for investment during the day. It is realized that prices may go off a point or two further on the strike developments if

was the largest of the morning and other steel and iron securities were "soft." Ten-nessee Coal and Iron declined to 60, or seven points below the close of Tuesday. The stock was attacked by or seven points below the close of Tuesday. The stock was attacked by the bears on the August statement of the company, which was not nearly so good as had been looked for after the most flattering talk of the insiders on a number of occasions recently. The surplus, of the company for the month was only \$49,432, compared with \$121,667 a year ago. The statement shows that there has been a real lull in business and a real decline in prices during the past summer, but as a matter of fact there is no reason in this why the stock should sell off permanently. The stock should sell off permanently. The present price of Tennessee Coal and Iron is too low for the earnings of the company, even on the August basis, which shows the big dividend earned on the stock and ized their conduct as disgraceful more for the year to date. But August will prove to be the worst month of the year undoubtedly, and this ball thought otherwise. He imposed fines means that in no other month will the company fail to pile up a big surplus toward dividends in future years. Many careful market people regard this stock as one of the best of the industrials, and on a claimed to have acted on the impulse of the moment. Wire, common, went off to 31 in the first

they are bad, but on the whole even this

not expected. For any long period the

present level of prices is undoubtedly low.

down the price of the grangers and Pacific | cent assault on two small boys. morning wheat was off somewhat and the grangers after opening weak soon showed

Consolidated Gas, which had been weak on Tuesday, held its own admirably yes-terday and today. The story given out by the bears yesterday morning after the decline had occurred was that Tammany is to make an at-tack on the company with a crusade for better gas at a lower price. When a few holders of the stock yesterday sold

ing stories regarding Brookiyn Kapid whom the Chinese leared, marked all their Transit recently that showed evidences of Tammany manipulation also. Brooklyn went off to 51 yesterday, and today went nearly to 50. The "upset price" on this stock has been whispered around as ligion, some superstition, and much tyrans. 50. A great many people "near the inside" anny

People's Gas held its own admirably and t would seem to be probable that the low

price was reached by the stock yesterday. Early this morning it had recovered to 90.

LAWYERS FIGHT IN COURT.

District Attorney Mullowny and Mr. Downing Use Their Fists.

An extraordinary spectacle, involving The break in Tennessee Coal and Iron | Assistant United States District Attorney Mullowny and Rossa F. Downing,

The fight occurred just as a case or trial was about to be argued before the jury. The case was that of the United States against Otto Fearson and James, A rather sharp advance in the price of wheat yesterday probably helped to push alias Pat, Carr, charged with an inde securities generally. Both October and November wheat advanced more than a cent during the day, and the close was near the top price in each case. This After the fighters were separated, Judge Kimball adjourned court.

> WHY JOHN WEARS A CUE. For Centuries His Hair Has Been

Done Up in a Braid. (From the Lewiston, Me., Journal.)

"Why do you wear a cue?"

Let us tell you.

Let us tell you.

Chinese. English beaux just wore wigs with cues and later shaved their heads just as did the Chinamen, and wore the later an acknowledgment of superiority on the part of the weak to the strong who hard to make money.

Let us tell you.

Chinese. English beaux just wore wigs with cues and later shaved their heads just as did the Chinamen, and wore the highest as did the Chinamen, and wore the hight as did the Chinamen, and wore the high as did the Chinamen, and wore the h

have been told to purchase the stock at this price. Manhattan and Metropolitin both sold off rather badly, but recovered later.

While for 3,700 years China was seething and boiling within herself there was forming on her northern borders a race of people destined to change the entire

The Standard Butterine Co.

A Rare Chance to Get In on the Ground Floor of a New Company Sure of a Large Business Paying Immense Profits.

The Standard Butterine Company is incorporated under the laws of the State of West Virginia, with a capital stock of \$1,000,000, divided as follows:

5,000 shares Preferred Full-Paid, Non-assessable-par value \$100 per share—\$500,000.

5,000 shares Common Stock-\$500,000. The Preferred Stock is guaranteed to pay eight per cent per annum, and the Common Stock is expected by the most conservative calculations to pay at least FIFTEEN PER CENT after the

first year of business. Messrs. Gurley & Johnson, bankers and brokers, of this city, and members of the New York Stock Exchange, are about to place two hundred thousand dollars' worth of the Standard Butterine Company's Stock. They will sell Preferred Stock at par -\$100 per share-and will give as a bonus ONE SHARE OF THE COMMON STOCK WITH EVERY SHARE OF PREFER RED STOCK BOUGHT.

It is desired to place this stock with the Washington public, and after it is placed application will be made to have the stock listed on the Washington Stock Exchange.

This is an exceptional opportunity for an investment which cannot fail to prove highly profitable.

The object of the company s to manufacture a high grade of Butterine, and its officers are men of wide experience in this line

The President of the Company, Mr. W. P. Wilkins, has been engaged in the business for years, and is certainly thoroughly competent to place the company on an immediate paying basis.

The company has secured eight and three-quarters acres of ground on the Baltimore and Ohio Railroad, known as the Clark Mills Property, and has purchased abroad the latest improved machinery for the manufacture of Butterine.

The erection of the plant and installment of machinery will be supervised by expert men, and everything possible will be done to insure a perfect product.

THE COMPANY ALREADY HAS FROM RESPONSIBLE DEALERS ORDERS FOR FOUR HUNDRED THOUSAND POUNDS BUTTERINE A MONTH, TO BE TAKEN JUST AS SOON AS IT IS POSSIBLE TO PLACE THE FACTORY IN OPERATION.

The profit in Butterine making is very large, and although the field is practically a new one, the demand is strong and cer-

In no other legitimate way can such large profits be made as in the manufacture of a high grade of Butterine.

The possibilities of the business are shown by the fact that in the little country of Holland eight hundred million pounds of Butterine are made every year-nearly ten times the present entire product of the United States.

Nearly all the early prejudice against Butterine as an articie of food has disappeared. It is becoming known as a perfectly pure and wholesome article of food, possessing none of the disadvantages of butter, kept without difficulty in all climates and all kinds of weather, and composed only of food products used habitually on every table.

Dr. Wiley, Chief Chemist of the Department of Agriculture, stated before the House of Representatives Commiftee on Agriculture, that this was a "nutritious and wholesome article of food, composed practically of the identical ingredients of but-

With the orders now in sight the company can by actual figures, which will gladly be shown to all interested, make a net profit of nearly two hundred thousand dollars a year, which is sufficient to pay EIGHT PER CENT ON THE PREFERRED STOCK OF THE COMPANY, OR TWENTY PER CENT OF THE ENTIRE CAPITALIZATION.

It should also be stated that the plant of the company will also make one hundred tons of ice every twenty-four hours, and the profits from this alone will pay coal bills, engineers', and firemen's salaries, and thus provide power for running the plant absolutely without cost.

This brief statement of the facts in regard to the company should interest all investors looking for an absolutely safe, and at the same time, highly profitable investment.

The company stands ready to offer the fullest proof upon all points, and to give intending investors full satisfaction upon any question which they may raise

Preferred Stock to be sold at par being limited in quantity, it is suggested that early application be made. Apply for information and make application for stock to

GURLEY & JOHNSON,

churia and Mongolia. They bore the name of Tartars or Manchurians and as early as 907 had conquered a part of China and made much trouble within the empire. In 1644 they again entered China and after much bloodshed conquered it. They set They set Sun-che upon the throne and inaugurated

the Manchu, or Ta-tsing, dynasty, which still prevails in China. They were horsemen of great prowess, whereas the native Chinaman was not a horseman. They shaved their heads en horseman. They shaved their heads entirely or wore tufts quite similar to that displayed by some of the tribes of North American Indians. They were prodigious fighters, savage lovers, iconoclasts in every respect. When their soldiery were in possession of the empire they collected all the Chinese women needed, placed each in a bag, tied the open end of the bag and then made their soldiers take a bag and settle down with it. The soldier could not see what was inside. All that ould not see what was inside. All that he knew was that it was a woman, and that she was to be his future wife, whether she was old or young, pretty or ugly, blind or halt. The Chinaman did not like this. He rebelled, but so far his rebellions have been futile. But what thus in China become part of a law and a reli-China became part of a law and a religion, strangely enough in England in the eighteenth century was merely a hair-dressing custom, borrowed from the

When the Tartars came upon him he wore his hair in quite ornamental fashion. The Tartars put an end to this. They said:

"You are servants of our dynasty. You must not only acknowledge the Manchu, but show outwardly a sign of submission. Shave your head close to the scalp at all spots but the centre. Then permit it to grow long and twist it into a long cott. When thus you wear your hair you will be known as a faithful subject of the dynasty. Otherwise you are liable to be mistaken for a traitor and tortured."

The Chinaman obeyed, and by 1651 the shaved head and pigtail—the sign of Tartar sovereignty—was almost universally at the Cha

ar sovereignty—was almost universally dopted. The native priests of China, like the saving of an Irishman's life. The all other priests, were anxious to curry favor with the ruling powers. So to make the shaved head and cue still more permanent they began to preach that no China's man could enter heaven if he did not have his cue with him when he died. That was the symbol to the gads that he was the symbol to the saving of an Irishman's life. This remedy will relieve any case of Hay Fever cold, or Catarrh in ten minutes. It is easy and delightful to use, and as it eats so quickly it is easy and delightful to use, and as it eats so quickly it is easy and delightful to use, and as it eats so quickly it is easy and delightful to use, and as it eats so quickly it is easy and the man from Erin's Isle that he gave him the only article of value he possess.

rors it has come about that the Chinaman and his cue are inseparable. Should the Manchu ever be banished he may cease the cue. The Christian Chinaman often does, but it will be ages before the pigtail will cease to be the token of Chinese bondage to Tartar conquerors and Chinese evidence of certainty of heavenly reward.

HAS A SIXTY-DOLLAR BILL. Piece of Money That the Treasury Pronounces Good.

(From the Spokane Chronicle.) oill in United States currency known to be

in existence. It was issued at the first session of the Continental Congress in 1778, and carries with it all the crudity of that age. It is a peculiar-looking document, being a piece of greenish paper of much the same mate rial as the present paper money, except that it is heavier. In shape it is almost square, with dimensions of about four, by three and a half inches wide.

On one side of the bill is written the redressing custom, borrowed from the French, who in turn copied it from the 60 Spanish milled dollars for value received Chinese. English beaux just wore wigs in gold or silver, according to a resolution

authority he had to distribute money at This rare bill is the property of Otto
Flechtl, of the Flechtl Quartette of the
Coeur d'Alene. It was presented to him
at the Charleston earthquake in 1886 for
the Charleston earthquake in 1886 for

LEGAL NOTICES.

IN JUSTICE COURT OF THE DISTRICT OF CO-LUMBIA.—Before Samuel C. Mills, Esq., a Justice of the Peace.—Frank P. Sheeby vs. Millard F. Freas and Street Freas. At law, No. 15027.

wise the cause will be proceeded with as in case of default. SAM'L C. MILLS, Justice of the Peace. J. W. Glennan, Piaintiff's Attorney. se20,27-oc4

one side the words "Printed, Hall & Selers, 1778." At the bottom of the face is the signature of someone in authority. The letters have so faded out that it is almost impossible to follow the characters. Some have imagined they could trace the signature of George Washington upon those lines, but others could not imagine what authority he had to distribute more than 1870 or \$1.000 for it, and says authority he had to distribute more than 1870 or \$1.000 for it, and says authority he had to distribute more than 1870 or \$1.000 for it, and says authority he had to distribute more than 1870 or \$1.000 for it, and says authority he had to distribute more than 1870 or \$1.000 for it, and says authority he had to distribute more than 1870 or \$1.000 for it, and says are recombled for the could induce him to part with it.

And the trader could be required to produce his permit before giving his order. If that plan did not succeed in getting more business or the Checago board, then they could arrange with Congress forbidding anybody to eat, sleep, or breathe without a permit from the Chicago board. Of course, the people might object, but shat difference would that make so long as 'Chicago got the business?" In the mean time people will trade in New York wheat, where the puotations are not 5 minutes old; also in N. Y. tocks and cotton. Try our service on them all.
